

iPad Lock / Tablet Lock Device Compatability

March 20, 2014

There are 3 ways to check device compatability

1. Contact

Contact us and we'll check for you

2. Chart

Check the chart below to see if your device is listed

3. Calculate

Calculate the "actual" diagonal (instructions bottom of page 3)

1. Contact Us

Let us know what brand and model you have.
For models purchased prior to 2014, please provide the full item number.

| | Excite Pure | YES |
| | Excite Write | YES |
| | Excite Pro | YES |

3. Calculate Device Compatibility

1. Take *Height x Height*
2. Add *Width x Width*
3. The square root of that total is the diagonal

Formula:

$$\sqrt{(H \times H) + (W \times W)}$$

A device is compatible if both of these are true

1. Diagonal is between 9.90 and 12.52 inches
2. Thickness less than .42 inches
